ing taken honors in pure or natural science at any recognized university.

3. That it be an integral part of the work of the institution to arrange supplementary courses at suitable centers for students requiring special qualifications and also special courses for forest officers from any part of the empire, whether at the institution or at centers of training in other parts of the world. The governments should recognize these courses as part of the ordinary duties of the forest officers, at any time during their service, and the governments concerned should give special facilities to forest officers in their service to attend such courses.

4. That a department of research into the formation, tending, and protection of forests be associated with the training institution.

5. That encouragement should be given to the existing provision made by universities and colleges for forestry instruction for those who do not desire to take the full course suggested for the forestry service. It appears that this is especially applicable to the United Kingdom. It is also desirable to make adequate provision for woodmen's schools for the training of foresters as distinct from those which are intended for forest officers.
